Because we're from Sweden

We have a different view on beauty and the way we develop our products. Since the very beginning, we have always considered nature to be an important part of how we do things and have built our reputation upon offering people safe, reliable products that respect our environment. To better communicate our commitment to products you can believe in and stand by, we have defined these product standards.

Responsible development

Creating high quality and effective products is not enough for us. We also work hard to ensure that our products' ingredients and materials are sourced and used in a way that is respectful of nature and good for you. This means that all our products live up to the following standards and requirements.

Highest safety standards

Developing safe products has been one of our main focuses since the very beginning. This means that when buying and using our products you can be sure they have undergone strict safety testing and follow the highest safety standards.

RESPONSIBLE DEVELOPMENT

ECO-ETHICAL SCREENING

We believe great products should be safe to use and created responsibly. That's why we screen all our ingredients to ensure they are ethically sourced, safe to use and of high quality. What's more, we never use ingredients from endangered sources.

NATURAL EXTRACTS

We believe in the power and purity of nature. That's why we only use natural extracts in our products, never synthetic ones.

NATURAL ORIGIN EXFOLIANTS

All our scrub products contain only natural origin exfoliants, such as almond shells, fruit seeds and olive stones. Better for you and better for our oceans!

HIGHEST SAFETY STANDARDS

STRICT EUROPEAN STANDARDS

We comply with the most stringent safety regulations globally and often go further to protect our consumers. For example, in our cosmetics we do not allow any of the 1300 ingredients banned in the EU but also prohibit an additional 60 ingredients that don't meet our high safety standards.

NON-GMO.

We choose not to formulate with GMOs (genetically modified organisms).

RIGOROUS SAFETY TESTING

We ensure that all of our products are safe to use. At Oriflame, we use independent laboratories to test our products – so you can be assured of the safety of the products we sell.

WELLNESS

We believe in the synergy of a healthy body, mind, and skin for physical and mental wellbeing. Our formulation philosophy ensures that we design our wellness products based on ingredients with integrity, that are stringently tested to be safe for you, and deliver proven performance.

Every range is powered by skin-rejuvenating technologies and youth-guarding plant stem cell extracts - a formidable partnership designed to correct and slow the skin-ageing process.

AT LEAST 7X BETTER SKIN

WHEN YOU FOLLOW THE NOVAGE ROUTINE – CLINICALLY PROVEN*

Your most beautiful, healthy, feel-good skin doesn't happen by chance. It doesn't come from one or two random products. It comes with a good routine and a little dedication. Take charge of your skin and feel great about it, every day. We have everything you need to get you started.

STEP 1

CLEANSE -
PREPARE TO ABSORB
Cleansing your skin morning and evening removes impurities for good skin health and creates perfect conditions to absorb the rest of the products in your routine.

STEP 2

EYES -
FOCUS ON THE EYES
Eye creams have lighter textures, are fragrance free, and specially formulated to target the special needs of the eye area like lines, puffiness and dark circles.

STEP 3

BOOST -
ACTIVATE THE POWER
Serums are the booster of your routine. The fluid texture of serum is designed to deliver its hydrating and youth-preserving actives quickly and efficiently, before you apply your day or night cream.

STEP 4

MOISTURISE -
REPLENISH & PROTECT
Day and night creams provide the final layer of active ingredients together with moisturisation. The day cream is designed to help hydrate and protect your skin, while the night cream is designed to restore and replenish while you sleep.
